# GUIDELINES TO CUSTOMISE BOARDS

This document defines the guidelines to create customised boards.

1. Choose your frame design

The first step to getting your custom board is to choose a frame and size of the board. Explore our customisation options according to your preferences.

Example of board's dimensions.

285mm (H)

385mm (W)

Example of New Basic board dimensions 385(W)x285(H)x19(D)mm

19mm (D)

8mm (FW)

Detail of frame width (FW) and depth (D) dimensions

The format for the board dimensions specified in this document is width x height x depth. Beneath each product, the dimensions for the front and depth are indicated. An example of these measurements can be seen in the detailed image.
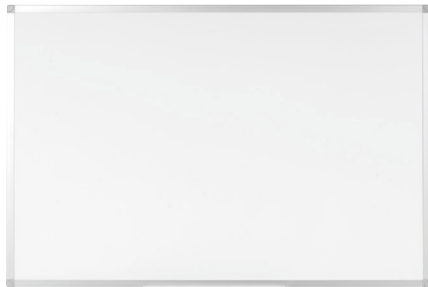

Maya

BOARD DIMENSIONS (MM)	ARTWORK DIMENSIONS (MM)	VISIBLE AREA (MM)
450X300x16	423X273	415x265

2. Prepare your artwork

Ensure that your artwork aligns with the guidelines for the selected frame type and is sized according to the example provided below.

Example of artwork dimensions.

Board Dimensions - 900x600mm (Frame included)

Artwork Dimensions - 873x573mm

Visible Artwork Area - 860x560mm
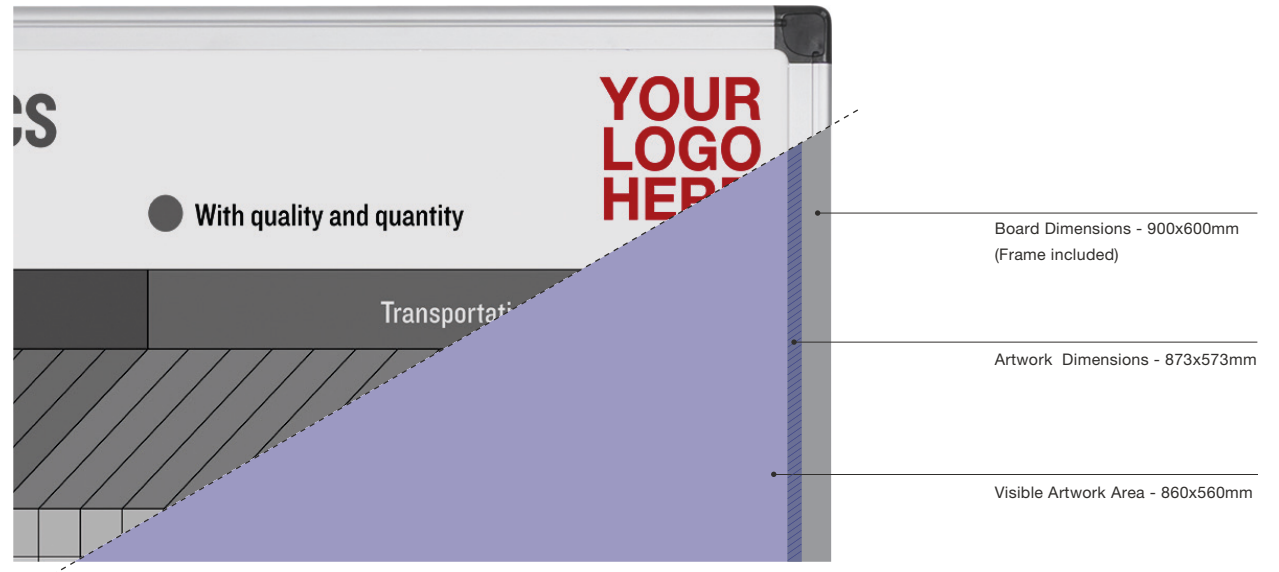

Example of artwork for a Maya frame size of 900x600mm

The dimensions of the visible area incorporate the required tolerances to prevent the drawings from being overlapped by the frame. Other sizes or types of product frames must be analyzed.

Specifications about the artwork file

1. The artwork: File to be sent in editable PDF format, converted into lines and in jpg format at 300 dpi. Images must also be at 300 dpi resolution and always embedded.

2. Production process: Due to the technical features of the printing production process, we can't guarantee a perfect match with the original pantone colours in the metal plate printing, and variations may occure in subsequent production.
There may be a tolerance of ±2mm during the production and assembly process.
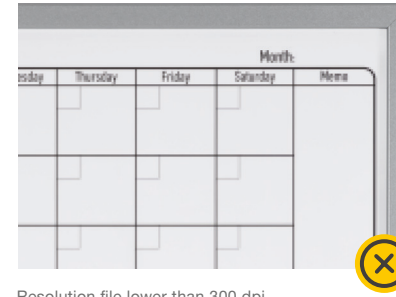

Resolution file lower than 300 dpi

Request a design artwork

To ensure optimal results, we request artworks files with the defined specifications. In the event that you are unable to do so, our internal design department can provide the necessary assistance, which may involve additional charges.

To request a design artwork by the Bi-silque team, it is required to fulfill the following application form:
